- Conflict Management
- Communication Skills

ABOUT ME

I am a front-end developer looking for work experience in IT. I specialize in React and have knowledge in back-end development. I am interested in deploying scalable and user-friendly projects. I would like to be part of a team, surrounded by more experienced individuals, to collaborate in achieving goals and, at the same time, constantly learn new tools and technologies.

TECHNOLOGIES

HTML - CSS (Sass - Tailwind - Bootstrap) - Wordpress - Javascript (Node - Express) - React (Redux - Next - React Native)- Vue (Pinia - Nuxt) - MongoDB - API Rest (Axios - Insomnia) - Responsive Design

PROJECTS

Promptastic | NextJS https://promptastic-nine.vercel.app

social network to share and discover useful prompts for use in artificial intelligence.

Batatabit Crypto | ReactJS https://batatabitcrypto.web.app

I am a crypto enthusiast, and I came up with the idea of creating a website to view real-time prices by consuming the Coin Cap API.

WORK EXPERIENCE
